AQ2000 AlemQube Self Bunded 2,000L Diesel Fuel Tanks with Self Mounting Options

AQ2000-2

October 2025

ALEM QUBE

Premium liquid storage is safe and convenient with the new Alemlube self-bunded range of AlemQube AQ Series tanks that include surface mounting options for pumps, reels and dispensing equipment.

The complete range includes tanks sized for up to 5,000L. Providing safe storage, compliant with Australian Standards, this new range is the ideal solution for your secure, onsite storage and dispensing of liquids including diesel fuel, oil, waste oil, kerosene, bio diesel and petrols.

This AQ2000 AlemQube tank has been designed and engineered by the Alemlube team to meet Australia's strict environmental and safety standards.

Holding 2,000L, this tank provides a durable, double-walled structure that eliminates the need for external bunding, reducing installation costs & saving valuable space.

SPECIFICATIONS, FEATURES & BENEFITS

- Self-bunded design is a double-walled construction that prevents leaks & eliminates the need for costly external bunding
- Tank dimensions are 2,268mm (W) x 1,270mm (H) x 1,086mm (D)
- Tank capacity of 2,000L SFL
- Tank weight of 876kg
- High quality mild steel construction with corrosion-resistant coating withstands harsh environmental conditions
- Compliant with Australian & International Standards for safe fuel storage AS1940-2017, UL142 & AS1692
- Custom decals are available to identify the fluid in use
- Flammable liquid kit available
- Designed for fast installation & easy relocation
- Use for on-site refuelling across agriculture and farming, construction and mining, transport & logistics
- Also suitable for oil
- Not suitable for Aviation Fuel or AdBlue®

Assembly and commissioning not included

For non-diesel applications please contact your closest Alemlube branch
